### **South Texas Veterans Health Care System**

South Texas Veterans Health Care System (STVHCS) is comprised of two inpatient campuses: the Audie L. Murphy Memorial Veterans Hospital in San Antonio, Texas and the Kerrville VA Hospital in Kerrville, Texas. STVHCS is part of the VA Heart of Texas Veterans Integrated Service Network (VISN) 17. South Texas provides health care services for 100,000 unique Veterans. The Audie L. Murphy Memorial Veterans Hospital (ALMMVH) is a quaternary care facility affiliated with the University of Texas Health Science Center at San Antonio (UTHSCSA). Comprehensive health care is provided through acute medical, surgical, mental health, physical medicine and rehabilitation, geriatric, and primary care services in addition to care provided in the Spinal Cord Injury Center, Community Living Center, Domiciliary Residential Rehabilitation Treatment Program (DRRTP). As a level II research facility, ALMMVH has ongoing projects that include aging, cardiac surgery, cancer, diabetes, and HIV. The facility has one of three National Institutes of Health sponsored clinical research centers in the VA. In addition, the Geriatric Research, Education & Clinical Center (GRECC) is a “Center of Excellence.” (<https://www.va.gov/south-texas-health-care/>)

The Pharmacy Service offers 24-hour coverage, centralized unit-dose drug distribution, a complete IV-admixture program, and clinical services across many specialties and levels of care. Outpatient pharmacies are also located in some clinics and operate during clinic business hours. The Clinical Pharmacy Program employs over 100 clinical pharmacy specialists. In addition to three postgraduate year one (PGY1) pharmacy residency positions, our facility offers ten postgraduate year two (PGY2) pharmacy residency positions in ambulatory care (2), geriatrics (1), infectious disease (1), internal medicine (1), oncology (2), pain and palliative care (1), and psychiatry (2). Our residents are appointed as clinical instructors with The University of Texas (UT) at Austin College of Pharmacy and have opportunities to participate in both didactic and experiential instruction. VA residents also have the opportunity to work with other local pharmacy residents and masters’ students from UT. Additional teaching opportunities exist through lab facilitation via University of the Incarnate Word Feik School of Pharmacy.

### **STVHCS Pharmacy Residency Programs – Diversity, Equity, and Inclusion**

**Mission:** The South Texas Veterans Health Care System Pharmacy Residency Programs promote a diverse, equitable, and inclusive residency service through thoughtful residency recruitment, ongoing education, and training for those involved in the residency programs, while honoring the VA mission of delivering services to our Nation’s Veterans, their families, and beneficiaries.

**Vision:** The South Texas Veterans Health Care System Pharmacy Residency Programs uphold a vision to become a residency program and pharmacy department of choice for prospective and practicing pharmacists, while developing and maintaining a firm commitment to being intentionally inclusive. We seek to become a program that consistently prepares its trainees and staff to effectively and equitably serve a diverse patient population reflective of our Veterans and Nation as a whole.

**Values:** Our pharmacy residency programs adhere to and advance the Department of Veterans Affairs’ core values of Integrity, Commitment, Advocacy, Respect, and Excellence (I CARE).

**Goals:** To fulfill the Mission and Vision, the South Texas VA Pharmacy Residency Programs will pursue the following strategic goals, which will be reviewed on an annual basis as a part of the comprehensive residency program review:

- **Residency Recruitment:** ensuring our recruitment efforts are inclusive, both for prospective residents and preceptors
- **Continuous Education and Advocacy:** ensuring we continuously address biases and ensure our residents and staff are prepared to meet the diverse needs of the patients they will serve today and in the future
- **Resource Awareness:** ensure that appropriate DEI resources and references are available to our pharmacy service and trainees
